### EDUCATION

#### BACHELOR OF FINE ARTS

Millersville University  
Millersville, PA  
2008

### ARTIST STATEMENT

Sarah Zentz Jewelry is committed to being a responsible, modern, and ethical jewelry brand. Fashioned from nature, using 100% sustainably sourced materials, I bring raw natural beauty to the environmentally conscious woman. You can feel good consciously and look good naturally while wearing my ethically made jewelry. My designer jewelry collection is ethically made with recycled silver, Fairmined silver, and reclaimed old growth redwood from California. The use of minimal, geometric, silver settings and precisely inlaid redwood are signature elements of my design aesthetic. As a Fairmined Licensee, I am an advocate for responsible mining and sustainable sources for precious metals in hope of promoting responsible mining and supply chain transparency.
